Greencom Technologies

info@greencom.co.ke

Nairobi, Kenya

**Dear Hiring Manager,**

I am writing to express my strong interest in the Intern Developer position at Greencom Technologies. As a Bachelor of Science in Computer Science student at Meru University of Science and Technology, currently in my final year, I am eager to contribute to your innovative development team and advance my career in software engineering.

My recent internship at Machakos University provided hands-on experience in network and systems administration, including server assembly, virtualization, and troubleshooting. Additionally, I have developed software using JavaScript, PHP, Laravel, and am proficient with tools like Git, and Visual Studio. I have practical knowledge of relational databases such as MySQL and PostgreSQL and am well-versed in HTML5, CSS3 and object-oriented programming concepts.

I am enthusiastic about the opportunity to grow professionally at Greencom Technologies by contributing to real-world projects and collaborating with a team that values innovation and continuous learning. I am confident that my technical foundation, combined with my strong work ethic and communication skills, will allow me to make a valuable contribution to your organization.

Thank you for considering my application. I would welcome the opportunity to discuss how my background and aspirations align with the goals of Greencom Technologies.

Sincerely,

Erick Nzioka Maundu
